Graphics, design and sound. Gameplay and performance. Conclusion and rating: 6/10. FLY PUNCH BOOM Platforms: Windows and Nintendo Switch. Developer: Klei Entertainment. Publisher: 505 Games. Price: from 2999 rubles. Rating: 7.50 out of 10. Fly Punch is another Fortnite clone, but unlike other games in the series, this one is more suitable for consoles. However, unlike Fortnite and Fortnite Battle Royale for different platforms, Fly Punch does not allow you to play as another person on one console. Fly Punch is a Fortnite-style multiplayer open-world shooter that uses game physics and is powered by Unreal Engine 4.
