I want the field to be resizable by the size of the input field, rather than by the size of the window. Can you please help me with it? A: I feel like that is not completely possible - but you might be able to do the following: `$(function() { $(".field").resizable({ alsoResize: "#input", alsoResize: { maxHeight: "20px" } });`; See a working example: Q: Reading command line input from a file in C++ I'd like to be able to pass in arguments to my program via a file of "command line arguments" (which is basically a text file). What would be the way to do this? I tried the following: `extern "C" { #include "myprogram.h" } void showUsage(int, char*)`
