The purpose of this quality improvement project was to develop a structured curriculum in child injury prevention for clinical dental faculty at a university-based clinic. The project was divided into 2 phases: 1) evaluation and 2) implementation. Evaluation was designed to assess the current need for a structured curriculum, the availability of a structured curriculum, and the potential for implementing a structured curriculum. Implementation was designed to develop, implement, and evaluate a structured curriculum in a progressive, sequential manner. The setting was a university-based clinic with 200 to 300 pediatric patients seen annually. Data were collected from charts, clinical notes, and the Education in Dental Medicine annual report (EDMR). The results of the evaluation showed that all but 1 clinical faculty taught various topics in child injury prevention. None taught all the required topics. All clinical instructors believed a structured curriculum would be of benefit to the pediatric patients. The results of the implementation phase were that the structured curriculum was successfully implemented and was rated favorably by the clinical instructors. Postcourse evaluations were completed by 91% of the participants. The quality improvement model proved to be effective for designing and implementing a structured curriculum in child injury prevention for clinical dental faculty at a university-based clinic.Q: Can you safely use the "English" version of an application for personal use on a non-domestic device? Developer Casey Hudson also told Polygon that the free free version will be enhanced over the summer, adding more tracks, redesigned UI elements and a few other changes. After that it's time for paid members to unlock the full version. There are currently 16 songs available for free on the free version. Unfortunately for those who fall in love with the series in the game, this is not an "Extended Version" or a "Play All" type of action - all song are in the free version. Felch talked with Chris Soules about the new app Twitter at SXSW, and tweeted: So there you go. Another case of "we" versus "they." But with the wrong characters used.
