INTRO category:Multimedia playersSustained megaloblastic anemia in the fetus. A case of  
megaloblastic anemia in the fetus is described. The anemia was sustained through 6 weeks  
gestation, with a return to normal levels 1 week after delivery. Megaloblastic anemia appears to be a  
consequence of inadequate development of the liver. In the fetus it may result in inadequate transfer  
of maternal red cell precursors to fetal erythroid cells. The case illustrates that megaloblastic anemia  
may be a long-standing postnatal manifestation of intrauterine megaloblastic anemia.1. Technical  
Field This invention generally relates to computer systems, and more specifically relates to a  
computer system in which bus controller devices are serially connected to a central processing

Mac DJ Controller.. Denon MC3000 Plus - 16 GB. A: I think I may have finally figured it out. It was all about the reference to the XPath. Apparently, when using the CreateElement() method, it only uses

---

XmlNameTable.localName, not XmlNameTable.xmlName. I changed the XPath to use the xmlName method and I get my XML. Here's the code I used:

```
XDocument doc = new XDocument( new
    XElement("ExportParameters", new
        XElement("ItemDocket", new
            XElement("DocketItem", new
                XElement("CodeValue", item.CodeValue),
                new XElement("Description",
                    item.Description),
```
